

President Donald Trump  
The White House  
1600 Pennsylvania Avenue  
Washington, D.C.

Dear Mr President,

We know that you respect the various arms of government but we also loved that in the past year you unexpectedly granted a boy's wish to mow the White House lawn, and even took pity on three foolish shoplifters in China by rescuing them from a foreign jail.

So we were emboldened, Mr President, to approach you once again, to implore you to intercede in the case of TOMMY ZEIGLER, wrongly convicted of murders in 1976. He has been on Florida's Death Row for almost 42 years! We have been praying that God will stir your heart to intervene because - borrowing from the ancient Hebrew Queen Esther - who knows, but that you have been brought to the kingdom for such a time as this!

Tommy Zeigler was a young hard-working and well respected Christian businessman before that massacre took place Christmas Eve 1975. Four were shot dead, and Tommy was shot and critically injured. Many guns were scattered throughout the store in the criminals' hasty retreat, all wiped free of fingerprints. Tommy's hands and clothing held no gun residue. The trajectory of the bullet to his abdomen made it physically impossible for someone to shoot himself there.

Tommy has taken lie detector tests and a truth serum test, passing all of these, with operators affirming that he was 100% truthful. Twenty years ago early DNA tests showed he could not have killed Mr Edwards as the prosecution claimed. They then said: well, he was guilty anyway...

Recent work on touch DNA prompted his lawyers to appeal to the courts for touch DNA tests, but these have all been denied in the courts. Why? Obviously Florida prosecutors do not want it proven beyond a doubt that they were wrong!

Tommy has often expressed grief that his many supporters over the years have had their lives spoiled by their concern and dismay over his case. He said numerous times: if I had died, you would not have had all these years of grief, worrying over me...

But we who love and believe in him consider him a Christ-like inspiration. Despite those who are united to deny him justice, he told me several times: 'I bear no ill will to anyone...' and in fact he says that perhaps his life was meant to stir the USA to rethink the Death Penalty.

There are many informative websites highlighting his case, such as [freetommyz.com](http://freetommyz.com) and [defrostingcoldcases.com](http://defrostingcoldcases.com).

We are praying for you, Mr President, that you will consider this terrible injustice and do the right thing for Tommy Zeigler. Thank you!

Sincerely yours,

Vicki Holland, secretary, 510 W Player Path, Beverly Hills FL 34465
